

Departmental Benefits

“In a nutshell Cryoserver was purchased as a high level answer to a need, but has evolved into a day to day product. People can’t lose emails and that really helps IT”

**Gary Hancock,
North Warwickshire
Council**

Reduce premium storage requirements for email data moved into the archive. Archive with Cryoserver and stop wasting resources now

Cryoserver puts an end to allegations of snooping, and allows for total transparency within your business by attaching a tamper-evident audit trail to your archive

Set your own retention period to adhere to your own internal policies & industry. With Cryoserver you can keep emails for seven years, seven decades or just permanently. Whatever your retention period you always have lightning fast access.

Cryoserver helps all employees

Our email archiving solution is more than just another type of back up for your IT department. It’s a valuable tool for daily use throughout your organisation. It improves both knowledge management and day-to-day business efficiency.

Cryoserver makes life easier for HR. It meets the needs of both legal and compliance. It supports IT with all email related tasks. And it has been welcomed by financial departments across multiple industries for the way it reduces costs.

The more departments begin to use Cryoserver, the more people benefit from real cost and time savings by bringing an improvement in efficiency.

IT department benefits

- Deduplication and compression of email. This means less storage used
- Reduced end user help requests. This gives IT more chance to be proactive in their role
- Improved IT security with an additional gateway to your email
- No more PST files. This means no more PST management issues
- No plugins make for easy management and implementation
- Additional reduction of the mail server storage space using “stubbing”
- No IT involvement in HR investigations

- Disaster Recovery
- Assists migration between mail servers or to Microsoft 365

Benefits for Human Resources

- Makes eDiscovery fast and easy
- No need to wait for help with email investigations
- Helps your business be compliant with privacy laws
- Audit prevents unfair searches or snooping and therefore ensures compliance with privacy laws
- Encourages employees to make a behaviour change for the better

End User benefits

- Powerful and easy to use
- Fast mobile access to every email in your archive
- Categorically prove communications were or were not sent
- Carry out searches without assistance from IT
- Never lose another email
- Single sign-on makes email more convenient
- Create automated filing system with saved searches
- Quicker access to your emails
- Valuable knowledge base tool
- Protect your own privacy with total accountability of your Data Guardian
- Delegated email access available
